Silver Linings
SYSTEMS LLC

RUGGED
ENCLOSURES

Make Your Data Untouchable

Silver Linings Systems' Rugged Enclosures are housed in ISO or customized containers, providing unparalleled protection and easy mobility. Guard against the ravages of dust, rain and increased rack density with the toughest enclosures in our line.

Shorten set-up time

Self-contained enclosures transport easily and integrate with your existing equipment.

Stand up to harsh environments

Cleanliness you can trust, even when operating in the outdoors.

Defend against overheating

Extend the life of expensive hardware with cooling systems designed for your needs.

Keep operating costs low

Minimize costs with efficient cooling that reduces waste and energy usage.

Basic Configuration:

- 20' or 40' ISO Container
- 4 or 10 Rack Enclosure
- Steel Construction
- Readily Transportable
- Zone Climate Control
- Utility Doors
- Up to 176U Equipment Capacity

Additional Options:

- Keypad Lock
- Chilled Water Supply Station
- Alternate Rack Stall Configurations
- Smoke Detection
- Fire Suppression
- Emergency Power Cutoff
- Programmable Controller
- Remote Monitoring
- Remote Access Control
- Over-the-road Chassis

Nominal IT Power Load	54 kW
Number of Racks	10
Cold Aisle Temp	≤ 24° C (75°F)
RMU Capacity	440
Gross Operating Load	87kW-e

*Specs for 40' configuration
